

# EMSeal

Thermal Laminator

This world beating, export quality, fully Australian designed and manufactured thermal laminator guarantees superb results without the need for extensive training.

The EMSeal thermal laminator has been designed for the low to medium volume user who demands quality results and ease of use, combined with superior quality of both parts and design. Superior safety features also make this machine the safest ever.

Perfect for protecting and enhancing pictures, awards, presentations, plans, teaching aids, maps, menus, worksheets and much more. Ideal for use in custom laminating businesses, government and council, offices and schools.

With simple controls and a user friendly design, even a first time user can quickly achieve professional results with little training.

**SAFETY, SIMPLICITY OF DESIGN AND EASE OF USE**

## Standard Features:

- 95% Australian made & manufactured, this machine is made to export standard.
- Power packed industrial grade motor with forward/reverse and variable speed functions.
- Powerful Teflon coated heater bars ensure fast and even heating of film, and a high quality finish.
